## LIGHTNING'S DEADLY WORK

Severe Thunder Storm Near Winston-Salem Last Night

### ONE WOMAN KILLED INSTANTLY

And Seven Others Severely Shocked. Two of Them May Not Recover. Meeting Broken Up.

Last night about 7 o'clock, as the congregation was assembling for services at Union Ridge church, about two and one-half miles south of Salem, a bolt of lightning struck a tree near the church, and descending it left the tree and struck the assembled people, instantly killing one woman, a Mrs. Huntley, and severely shocking several others.

A man by the name of Heitman, standing in his wagon, was only slightly shocked, while his wife and several others who had just alighted from the wagon, were seriously hurt, two of whom it is thought will not recover.

Mrs. Heitman's baby was thrown some distance from its mother, but strange to say it was not hurt, while the mother was badly injured.

The meeting was broken up and great excitement and confusion prevailed.

The lady killed and those who were most severely shocked all lived near Centerville, a suburban village of Winston-Salem.

### A DRUGLESS SCIENCE.

Miss Martin Enlarges on the Claims of Osteopathy.

Miss Clara Martin, diplomate in Osteopathy, who was registered at the McAdoo this morning, is the exponent in North Carolina, of what is known as the drugless science.

Miss Martin has been located at Durham, N. C., for several months and has built up an encouraging practice at that place. This is her first visit to Greensboro, she having come here to see a patient from Guilford College. Miss Martin says that the science of curing diseases by digestive manipulations, instead of by the absorption of drugs has been in existence only twenty three years, but during that time its growth and spread have been marvelous. It has of course been fought continually by all doctors of medicine. Miss Martin stated to a reporter that every attempt was made by the physicians of Durham to get her out of town.

Osteopathy, she stated, cures diseases by going to the seat of the disorder and setting that right and then allowing nature to proceed according to her usual way. The old science treats by symptoms. In Osteopathic treatment, no medicine is ever used. Just as a machinist locates and repairs the broken part of the machine and then sets it to work as before so osteopathy locates the course of any physical disorder and remedies that instead of administering drugs to counteract the results without removing the cause.

The school of Osteopathy claims that they have located the causes and hence can cure many diseases which have heretofore been considered incurable.

Miss Martin intends to visit Greensboro twice a week in the future.

### Blue Mountain Joe's Departure.

The Dr. Blue Mountain Joe troupe left yesterday for Burlington, where it will remain for a week, going from there to the Raleigh fair. Dr. Joe is still in the city, but will join his company after tomorrow.

It must be said in fairness to Dr. Joe that he gives a clean, amusing and entertaining show, one to which we have heard no objections made while here; unlike so many itinerant shows, he pays his bills and conducts himself as an honorable and upright man.

### News of Good Times.

We are pleased to hear of anything that tells of the growth and prosperity of Greensboro. In this connection we will state the Merchants' grocery company is two days behind time on orders. We hope they will never catch up.

### Morton House to Reopen.

W. B. Allen, of Winston, will come to Greensboro at an early day to take charge of the Morton House. He will run it as a hotel and boarding house.

Able Sermon on the Coming Triumph of the Gospel.

Rev. Livingston Johnson preached an eloquent sermon at the Baptist church yesterday morning on the text, "For how is our salvation nearer than we believed."—Romans, 13th chapter and 11th verse.

The central thought of the sermon was the coming triumph of Christianity—an inspiring theme and inspiring-ly handled. The speaker believed in the great advances of Christianity in recent years as presaging the day when it will be the religion of the world. The discourse was hopeful, inspiring, able.

On next Sunday at this church there will be congregational service, it being the second anniversary of Mr. Johnson's service as pastor. The membership roll of the church will be called.

His policy is to deal with the Insurgents and ordinary inhabitants upon the same basis. ## NEXT SATURDAY IS THE DAY

### And the John Robinson & Franklin Bros. Show the Attraction.

Never in the history of tented amusements has the world known so vast an enterprise as the one made by the combining of these two great institutions. It has brought the circus field into a new era, and placed circus exhibitions upon a basis that has never before even been attempted.

Two separate and distinct representative circus companies, culled from the best that the world affords have been joined together. Two massive manageries have been blended into one and the two magnificent parades have been so arranged that a double parade is given daily in the cities where these combined shows are to exhibit.

It requires the largest tents that have ever been constructed to accommodate this big amusement institution, and so enormous have been the crowds attending, that it has been necessary to augment the seating capacity, for it is not the policy of these shows to so limit their seating capacity as to make those who desire to see and enjoy the wonderful performances procure reserved seats, and while there have been reserved opera chairs placed around the arena for the accommodation of those desiring them, fully eight-tenths of the seats are free to the patrons.

Their day of exhibition in Greensboro is Saturday, October 16th, and it will surely be a gala day.

### Excellent Showing of City Schools.

Superintendent Grimsley, of the city schools, reports that despite the scarlet fever scare, the attendance of the schools is now up to the enrollment of the whole of last year. ## LIGHTNING'S DEADLY WORK

Severe Thunder Storm Near Winston-Salem Last Night

### ONE WOMAN KILLED INSTANTLY

And Seven Others Severely Shocked. Two of Them May Not Recover. Meeting Broken Up.

Last night about 7 o'clock, as the congregation was assembling for services at Union Ridge church, about two and one-half miles south of Salem, a bolt of lightning struck a tree near the church, and descending it left the tree and struck the assembled people, instantly killing one woman, a Mrs. Huntley, and severely shocking several others.

A man by the name of Heitman, standing in his wagon, was only slightly shocked, while his wife and several others who had just alighted from the wagon, were seriously hurt, two of whom it is thought will not recover.

Mrs. Heitman's baby was thrown some distance from its mother, but strange to say it was not hurt, while the mother was badly injured.

The meeting was broken up and great excitement and confusion prevailed.

The lady killed and those who were most severely shocked all lived near Centreville, a suburban village of Winston-Salem.

### A DRUGLESS SCIENCE.

Miss Martin Enlarges on the Claims of Osteopathy.

Miss Clara Martin, diplomate in Osteopathy, who was registered at the McAdoo this morning, is the exponent in North Carolina, of what is known as the drugless science.

Miss Martin has been located at Durham, N. C., for several months and has built up an encouraging practice at that place. This is her first visit to Greensboro, she having come here to see a patient from Guilford College. Miss Martin says that the science of curing diseases by digestive manipulations, instead of by the absorption of drugs has been in existence only twenty three years, but during that time its growth and spread have been marvelous. It has of course been fought continually by all doctors of medicine. Miss Martin stated to a reporter that every attempt was made by the physicians of Durham to get her out of town.

Osteopathy, she stated, cures diseases by going to the seat of the disorder and setting that right and then allowing nature to proceed according to her usual way. The old science treats by symptoms. In Osteopathic treatment, no medicine is ever used. Just as a machinist locates and repairs the broken part of the machine and then sets it to work as before so osteopathy locates the cause of any physical disorder and remedies that instead of administering drugs to counteract the results without removing the cause.

The school of Osteopathy claims that they have located the causes and hence can cure many diseases which have heretofore been considered incurable.

Miss Martin intends to visit Greensboro twice a week in the future.

### Blue Mountain Joe's Departure.

The Dr. Blue Mountain Joe troupe left yesterday for Burlington, where it will remain for a week, going from there to the Raleigh fair. Dr. Joe is still in the city, but will join his company after tomorrow.

It must be said in fairness to Dr. Joe that he gives a clean, amusing and entertaining show, one to which we have heard no objections made while here; unlike so many itinerant shows, he pays his bills and conducts himself as an honorable and upright man.

### News of Good Times.

We are pleased to hear of anything that tells of the growth and prosperity of Greensboro. In this connection we will state the Merchants' grocery company is two days behind time on orders. We hope they will never catch up.

### Morton House to Reopen.

W. B. Allen, of Winston, will come to Greensboro at an early day to take charge of the Morton House. He will run it as a hotel and boarding house.

### Price of Gold Raised.

London, Oct. 11.—The bank of England today raised the price of bar gold and eagles one half penny.

## BAPTIST CHURCH YESTERDAY.

Able Sermon on the Coming Triumph of the Gospel.

Rev. Livingston Johnson preached an eloquent sermon at the Baptist church yesterday morning on the text, "For how is our salvation nearer than we believed."—Romans, 13th chapter and 11th verse.

The central thought of the sermon was the coming triumph of Christianity—an inspiring theme and inspiringly handled. The speaker believed in the great advances of Christianity in recent years as presaging the day when it will be the religion of the world. The discourse was hopeful, inspiring, able.

On next Sunday at this church there will be congregational service, it being the second anniversary of Mr. Johnson's service as pastor. The membership roll of the church will be called.

His policy is to deal with the Insurgents and ordinary inhabitants upon the same basis. It may be remarked, in passing that attempts to make a "Grand Old Man" of Mr. Cleveland have not been greeted with effusive enthusiasm. There is a growing impression that few men have been more fitted to adorn the limbo forgotten ex-presidents.

THE Honorable Marcus A. Hanna is grown envious of Chauncey Depew's after-dinner laurels, but when put on for a speech on "Ohio—the modern Virginia" could only find one comparison—the number of presidents each has furnished. Mr. Hanna did not include the present incumbent in his list, having previously claimed to have furnished McKinley himself.

THE increased attendance upon our public schools is most gratifying. It shows that our people, in the material advancement of the city are not neglecting the more important task of properly training those to whose hands the future of the city must be so largely committed. We would especially urge upon those of our citizens who need the help of their children, in one way or another, to make a temporary sacrifice and keep them in school. It cannot be said too often nor too greatly emphasized that the future will belong to the educated man and the educated woman. This will be much more the case than in the past or the present. The number that have had the advantages of mental training will be larger than ever before and the contest between individuals will be more keen and close, with the chances increasingly against him who has had his faculties poorly trained. He mounts slowly who has not even the tools with which to hew his steps.

THE Tennessee press has been rubbing it into Governor Taylor for going on the lecture platform in other states but if other states are consumed with a longing to hear Governor Russell, this state will take pride in sparing him for awhile. Tarheels are famed for their neighborliness any way.

## A GEORGIA ESTIMATE

Of High Point. What the Atlanta Journal Says.

The Atlanta Journal has the following to say of our hustling neighbor, High Point:

When in North Carolina if you will ask anybody to name the liveliest and fastest growing town in the state, they will unhesitatingly reply High Point—that is, of course, if they are posted on the various towns. For its size, it is perhaps the liveliest town in the south. There is life, get-up-and-get everywhere in High Point, and to the blowing of whistles and rattle of machinery there is no end.

High Point believes in home and hospitality—patronizes home enterprises and never objects to newcomers sharing its hospitality. To the man who wants to work a special invitation is extended.

Her people are progressive and conservative. The rapid growth of the town and the substantial basis on which every business interest rests are testimonials to the business sagacity of the people; the numerous shades of religious and political beliefs which prevail unmolested is a demonstration of the true American spirit. A man in High Point may worship God as he pleases. He may believe and vote politically as his conscience dictates, both without the fear of ostracism or even dictation.

There are no bar-rooms in High Point and never has been. The charter of the town has always prohibited issuing license.

Many of the workmen own their own homes and the number is increasing very satisfactorily.

The good order which prevails among the people is something remarkable. No serious difficulty has ever occurred in the city, and only one town officer is required to keep the peace among the 3,500 people.

The city owns its electric light plant pronounced one of the best in the south, and is self-supporting—the only case on record of a city furnishing forty arc lights without cost to the taxpayers.

High Point is strictly a manufacturing city. There are now twenty factories in operation, as follows: Snow Lumber company. W. P. Pickett & Co., tobacco. Eagle Furniture company. Tate Furniture company. Home Furniture company. Spokes and handles, shuttles, blocks, etc.

High Point Furniture company. Alma Furniture company. High Point Machine works. High Point Basket company. High Point Mattress and Excelsior company. High Point Roller mills. Monarch Roller mills. Globe Furniture company. High Point Chair company. Southern Chair company. Snow's Cigar Factory. High Point Brick and Tile company. High Point Hosiery mills. High Point Coffin and Casket company.

These factories have all been built by home capital and at no place in the south can such a manufacturing spirit be found as exists in the community today. As soon as the people get enough surplus in hand another factory goes up, as a matter of course.

High Point does not object to outside capital, but her people do not sit down and wait for it, neither do they spend their time in devising some scheme to catch capital from the outside. People from every section of the country are always given a hearty welcome and those coming will always find the people busy. If they desire to join their fortunes with the fortunes of those of the community they always find encouragement and are never asked to go it alone.

#### NOTES FROM THE UNIVERSITY.

**Getting Ready for the Game With Greensboro Tomorrow.**

Chapel Hill, Oct. 11.—Another game of football will be played here tomorrow between the University team and the Greensboro Athletic Association team. It is expected that it will be a very interesting game. The same teams will play in Greensboro again Saturday. The U. N. C. boys are getting in better shape each day for the final struggle, which will take place in Richmond, Va., on Thanksgiving Day between the Tarheels and Virginia team for the championship of the south.

The contract for the erection of the new alumni building, which will cost about \$20,000, will be given out by the building committee of the board of trustees next Tuesday. The meeting will be held in Raleigh and Dr. Alderman will be on hand. The building will be of the latest style of architecture and will be a beauty.

The first holiday of the term will be given next Tuesday, which will be "University Day and President's reception to the Senior Class."

The session of the federal court at Greensboro got one of the "Hill" negroes in trouble. Bob Merritt was given 60 days in jail and fined \$100 for retailing whiskey. There will be several other cases up from this section at the next term of court—if the parties can be caught.

#### A REAL CIRCUS COMBINE.

**The Biggest in the World.—Robinson and Franklin Shows.**

The uniting of the great John Robinson and Franklin Bros.' enormous shows has caused a "stir" in tented amusements, the like of which has never been known.

This huge institution is the only one to present the wonderful "horseless carriage" and such well-known and high-salaried performers as Miss Rose Dockrill, the world's greatest equestrienne; Mr. Frank Miller and Robert Stickney, who stand at the head of the bareback riders of the profession; the five Cornalins family, Europe's foremost acrobats; Seigrist and Silbon, who are the acknowledged monarchs of the air, a double troupe of Royal Japanese performers; Miss Dollie Miller, the greatest lady acrobatic rider on either side of the Atlantic; the three famous French grotesques, the De Zallios; a troupe of twenty humanely educated horses and ponderous elephants, besides other novelties which can only be counted by the score. It is also a well-known fact that these great shows present the finest zoological collection in America and a hippodrome of surpassing merit. The grand street parade, which moves from the show grounds each day promptly at 10 A. M., is worth coming miles to see, and is the combined parades of both of these monster tented amusements. At Greensboro on Saturday Oct. 16, 1897.

#### Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed when the languid, exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alternative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, constipation, dizziness yield to Electric Bitters. 50c. and \$1.00 per bottle at C. E. Holton's drug store.

Endorsed and commended by best known Physicians of the country. "Two-fold throughout, thereby creating an inner-air space," which affords complete protection from draughts or sudden chills, warmer, softer, with no irritation to the skin, more elastic, better fitting and with less weight than single fabric underwear. Manufactured from finest selected and hand-sorted Australian Lamb's Wool. Adapted for wear to Men, Ladies and Children, and surpassing in protection to the person—comfort and pleasure to the wearer—any goods heretofore offered to the public.

On the strength of this we have purchased a large lot of these goods, and we will be glad to have you call and examine them. Your opinion is worth much to us, whether you wish to buy or not.

#### PERSONAL AND SOCIAL.

Prof. M. C. S. Noble, of Wilmington, is in the city.

Louis Harris, of Hight Point, spent last night in the city.

Miss Bertha Cox, of Hight Point, returned home this morning.

John Call, salesman for S. A. Ogburn & Sons, Winston, was here this morning.

T. J. Shaw spent Sunday at his home here and returned to Troy court this morning.

Dr. H. B. Battle arrived in the city this morning from Morganton, and went to Winston.

G. S. Bradshaw left on the early train for Asheboro and Morganton on professional business.

Word H. Wood, of Winston, spent yesterday at the home of his parents on North Spring street.

District Attorney Holton spent Sunday at his home in Winston and returned to the city this morning.

John W. Fries and Miss Ruth Sievers, of Salem, took supper at the McAdoo last night en route to Washington.

Miss Sadie Hanes, of the Normal and Industrial College, spent Sunday at her home in Winston, returning this morning.

Miss Maud Munger, a former resident of Greensboro, now of Philadelphia, is in the city, registered at the McAdoo. She made THE TELEGRAM a pleasant call this morning and subscribed for the paper.

Tom McLean, a popular salesman for C. M. Vanstory & Co., spent Sunday in Winston, returning home on the early morning train, and as he wended his way to his place of business we imagined we heard him humming "The girl I left behind." But it was only imagination.

#### A DOZEN DUSKY DAMSELS

**Arrested by the Officers Saturday Night and Jugged.**

Since the exodus from the Meadow the ere and erstwhile ditty denizens of that quarter have been roaming the streets or lurking around dark alleys in the neighborhood of the ice factory. Things were too hot in the meadow and they were hunting a cooler place.

Saturday night about a dozen of these dusky damsels were arrested and placed in jail. What to do with them is a dilemma. They can no longer be worked on the streets as a result of the superior wisdom of our recent "reform" law makers. They can only be confined in jail a short time, which is no punishment at all for them; it gives them a rest and when they are let out they are as great a nuisance as ever.

This condition of things is a strong plea for the establishment of a county work house where such law breakers as these could be made to earn their keep while confined as punishment for their offenses. As it is now they are confined in idleness and the tax payer pays the bill, and the bill can be presented and payment demanded as often as some wretch of this character sees fit to get drunk and otherwise become a nuisance on the streets. There is no limit.

Why not seriously consider the matter of establishing a work house.

#### Stands at the Head.

Aug. J. Bogel, the leading druggist of Shreveport, La., says: "Dr. King's New Discovery is the only thing that cures my cough, and it is the best seller I have." J. F. Campbell, merchant of Safford, Ariz., writes: "Dr. King's New Discovery is all that is claimed for it; it never fails, and is a sure cure for consumption, coughs and colds. I cannot say enough for its merits." Dr. King's New Discovery for Consumption, Coughs and Colds is not an experiment. It has been tried for a quarter of a century, and today stands at the head. It never disappoints. Free trial bottles at C. E. Holton's drug store.

We bought a quantity of these garments last season, and sold every garment, all of them to Greensboro citizens, and before buying this season, we have been personally to see every customer for these goods, and they all without hesitation say that it is the nicest underwear it has ever been their good fortune to secure. They also informed us that they would furnish us with letters if we desired.

C. R. Reno, of the Joshua Simpkins company, was here today with a view to arranging with Manager Blackburn for a date at the Academy of Music. It is thought the company will play here about the 19th instant.

Dr. J. L. Bullock leaves tomorrow to attend the American Medical Association of colored physicians, which meets at Nashville Tenn., Oct. 15th, 16th. He is to present a paper on the excessive mortality of the colored people.

As the vestibule pulled into the station today at noon, a crippled tramp, with crutches, was noticed riding "blind baggage" on the platform of the front car, next to the tender. He hopped off at the water tank, and was unmolested.

Mr. and Mrs. A. A. Chandler returned at noon today from Mount Airy White Sulphur Springs, and are stopping with Mr. W. R. Pickard on North Spring street. They will board with Mr. Pickard while before they commence housekeeping.

Moses I. Stewart, of Winston, was here at noon. He says he is yet public printer, but is not bothered with any of the work. From the looks of his coat and necktie, we would suppose he intended calling on President McKinley before returning home.

The evidences of the Spirits' presence in the services at Centenary church yesterday were such that the pastor thought it best to have preaching for several nights during the week. The indications for a revival of religion are encouraging. Preaching tonight at 7:30. You are cordially invited.

There are some valuable improvements being made along North Davie street. Mr. G. W. Carr has recently raised his dwelling house two or three feet, and is now raising the two-story house adjacent to his home place about five feet. The sidewalk and yards will be filled in, greatly improving the appearance of the places.

At a meeting of the Greensboro athletic association, held on Saturday night, J. S. Caldwell was elected captain of the '97 foot ball team, vice R. D. Douglas, resigned. Mr. Douglas's resignation was received at his urgent request. Mr. Caldwell is too well known as an athlete to require any extended notice. He respectfully asks that the men do their duty. The association then elected J. S. Michaux manager, vice H. C. Martin, resigned. Mr. Michaux is a warm friend of athletics and a safe counsellor.

## AT WEST MARKET YESTERDAY.

### "Will a Man Rob God?" Strong and Practical Sermon.

Rev. Dr. J. H. Weaver talked plain and practical common sense in his sermon at West Market street church yesterday morning. The text was taken from Malachi 3rd chapter and 8th verse: "Will a man rob God? Yet ye have robbed me. But ye say, wherein have we robbed thee? In tithes and offerings."

The preacher touched on many ways in which we rob God. It is a common and every day practice. How profuse and lavish we are in expressions of thanks to each other for even the smallest and most common place courtesies, kindnesses and attentions. Yet how negligent and forgetful we are to thank God, from whom all good gifts come, for His many and abundant blessings. Thanks and praise is due Him, and we are robbing Him of His own.

We rob God of time. We take time which belongs to Him to perform secular duties. Many people can't even give an hour of the holy Sabbath to listen to the preacher at one service, yet the whole day belongs to God and is specially set apart and designated as a day for His service. We complain that the morning prayer is too long. It takes too much time to go to church.

Members of West Market have robbed God in the last few weeks by walking right by the church prayer meeting at night and attending the free show, which has been exhibiting in town. If touched up about not attending prayer meeting, a ready excuse is given that we didn't have time. But there was plenty of time to go to the show.

Ask yourself the question: Have I lavished money on pleasures and withheld money from the church? Be honest with yourself and with your God.

It is possible for a man to steal from his fellow man, to rob on the highway and escape detection and conviction; but certain conviction and punishment awaits the man who robs God.

### They Worked Like Trojans.

W. C. Beasley, a plumber, worked on the water pipes out at the water works for thirty-six hours continuously to get the water back on the town. He had been working all day when the accident happened but he jumped in at four o'clock Saturday and stuck to it until four o'clock yesterday when the damage was finally repaired and the town once more furnished with water. This sort of grit should be appreciated.

The water company also feels under obligations to John Lewis, the veteran fireman, who went out so soon as he heard of the trouble and was of great assistance in getting the pipes repaired.

Six colored men assisted these gentlemen faithfully in their arduous work against time.

## Each one Separate.

If each lump of coal was separate, with legs to walk on and arms to wash and brush itself clean, it would be just a little cleaner, and could get into your cellar just a little easier than it does at present. Mind you, only just a little. We think we have the cleanest and best coal ever mined, and that we deliver it as carefully and promptly as it can be done. We should be glad to have your opinion and we'll treat you fairly.
